# What are Employee Capital Plans (PPK)?

Employee Capital Plans (Pol. Pracownicze Plany Kapitałowe) are a voluntary long-term saving scheme that will allow you to accumulate **additional funds for your retirement**. PPK is financed by your employer, the state, and you. The funds accumulated in it are fully private

and can be inherited. You can opt out or opt back in at any time. All employees between the age of 18 and 55 are automatically enrolled. People over 55 must submit a special application.

## Why is it worth to participate in PPK?

### PPK is a source of additional funds for the future

According to ZUS estimates, future pensions may constitute only 30% of the last salary. Saving in PPK is intended to provide you with additional funds after the end of your professional activity. The sooner you join PPK, the more capital you will accumulate for your retirement.

### Access to funds at any time

Funds in PPK are private and you can withdraw them at any time. However, the withdrawal of funds before the age of 60 will entail the loss of tax credits and subsidies from the state.

### Funds from PPK are private and can be inherited

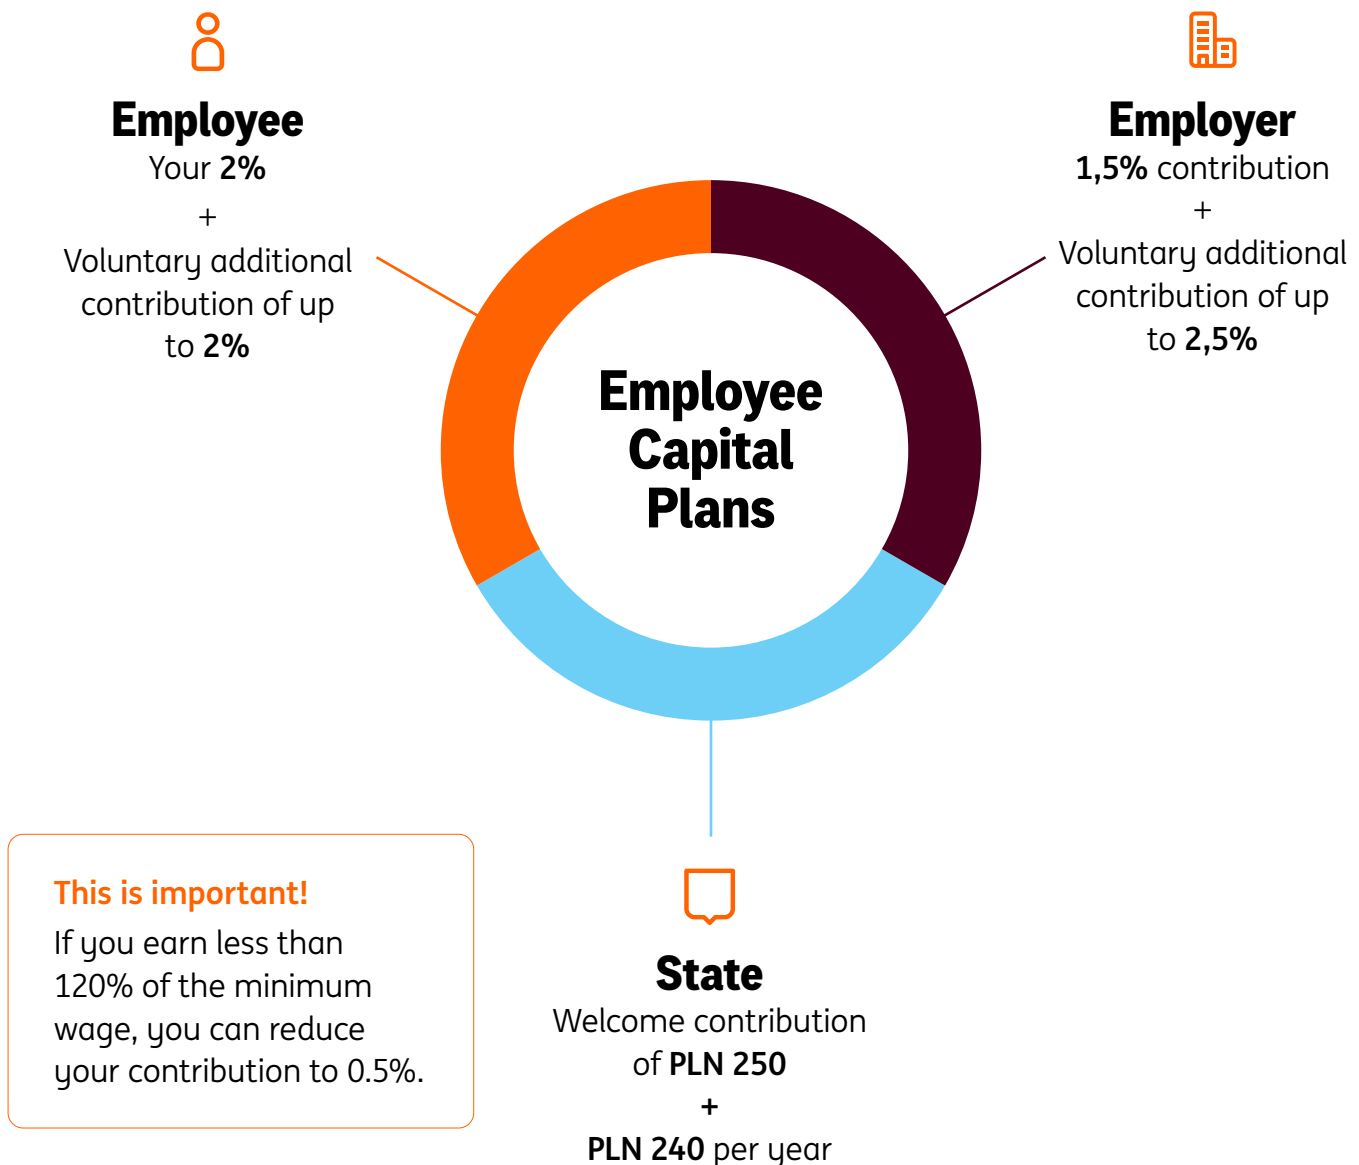

Accumulated funds are inherited and exempt from inheritance tax. Name the beneficiaries who, in the event of your death, will inherit funds from PPK.

# How will your funds be invested?

Your funds in PPK consist of payments from you, the Employer, and subsidies from the State. Your basic payment is 2% of your gross salary. You can voluntarily increase your payments by 2% by declaring an additional payment (then your payments will total 4%). The basic contribution from the Employer is 1.5% of your gross salary. This contribution is

financed by the Employer and you will only pay income tax on it. As a PPK participant, you will also receive a welcome contribution of PLN 240 (on a one-off basis) and an annual payment of PLN 240 (once a year).

# When can you use the funds accumulated in PPK?

You will withdraw the funds accumulated in PPK after you turn 60. You can withdraw them in full, but it is most advantageous in tax terms to withdraw 25% of the accumulated savings at once, and the remaining 75% in a minimum of 120 monthly instalments (throughout 10

years). Then you will not pay capital gains tax. You can submit an instruction to withdraw funds after you turn 60 in the [www.ingtfi24.pl](http://www.ingtfi24.pl) transaction portal.

## Withdrawal in full after you turn 60

**25%**

immediate withdrawal

**75%**

120 monthly instalments for 10 years

More information regarding instructions can be found in the Employee Capital Plan Agreement available at [www.ingtfi24.pl](http://www.ingtfi24.pl) upon logging in with your participant number and password.

## What is a refund of contributions to PPK and what does it entail?

A refund is a withdrawal of funds from PPK at any time, even before the age of 60; however, in such case:

you will pay capital gains tax;

you will return 30% of the value of contributions made by the employer due to the fact that they were exempt from social security contributions, and therefore the collected 30% will be recorded as your retirement pension insurance contribution in ZUS (the Social Insurance Institution);

you will forfeit all subsidies received from the state.

# Exceptional situations – when can you use the accumulated funds early?

If you, your spouse or your child become seriously ill, you can take advantage of up to 25% of the funds without the obligation to return them.

If you are under 45 and want to cover your own contribution when taking a loan to buy an apartment or build a house, you can withdraw up to 100% of the funds for that purpose.

However, you will have to pay them back in full within 15 years.

**up to  
25%**

No obligation to return

**up to  
100%**

100% to be returned  
within 15 years

# How will your funds be invested?

Funds accumulated on your PPK account will be invested in target-date sub-funds, which differentiate the level of risk depending on the age of the investor. ING TFI has prepared an offer of 10 tailor-made target-date sub-funds that take into consideration the different age of PPK participants, and thus implement different investment policy rules. The sub-funds are part of the ING Emerytura SFIO fund (ING Retirement Pension Specialized Open-ended Investment Fund). Investments in the sub-funds entail a risk resulting from the nature of the investment activity.

At each stage of the fund's operation, the risk is matched to the age of the PPK Participant. This means that as the participant approaches the age of 60, the share of assets with a higher level of risk (e.g. shares) systematically decreases, and the share of debt securities (e.g. bonds, bank deposits) increases.

Assignment to a specific fund is automatic and depends on the PPK participant's date of birth. By investing in the fund, you become the owner of the sub-fund's participation units.

Sub-fund	Year of birth	
ING Emerytura 2025	1963	1967
ING Emerytura 2030	1968	1972
ING Emerytura 2035	1973	1977
ING Emerytura 2040	1978	1982
ING Emerytura 2045	1983	1987
ING Emerytura 2050	1988	1992
ING Emerytura 2055	1993	1997
ING Emerytura 2060	1998	2002
ING Emerytura 2065	2003	2007
ING Emerytura 2070	2008	2012

## We allocate ING Emerytura SFIO funds so that the investment risk decreases as you approach the target date

# How will your money be invested?

What are the target investments of the ING Emerytura SFIO sub-funds?

## Share portion

## Aviso legal

This material has been prepared by ING Towarzystwo Funduszy Inwestycyjnych S.A. (hereinafter referred to as ING TFI) and is disseminated for advertising purposes or to promote its services. ING TFI holds the authorization to conduct business activity issued by the Polish Financial Supervision Authority. Investments in investment funds managed by ING TFI are subject to investment risk and the Participant must take into account the possibility that they may lose a part of the invested funds. This material does not constitute a disclosure document required by law and does not contain sufficient information to make an investment decision.

Information about the ING Emerytura Specjalistyczny Fundusz Inwestycyjny Otwarty (ING Retirement Pension Specialized Open-ended Investment Fund) fund and its sub-funds as well as investment risk connected with them, prepared in the Polish language, has been included in the Information Prospectus available at the registered office of ING TFI and on the website at [www.ingtfi.pl](http://www.ingtfi.pl), and in Key Information and Information for a Customer of an Alternative Investment Fund, available at the registered office of ING TFI and on the website at [www.ingtfi.pl](http://www.ingtfi.pl) (<https://www.ingtfi.pl/informacje-i-dokumenty/dokumenty-funduszy/prospekty-informacyjne>). Information on the rights of investors, prepared in Polish, can be found in the Information Prospectus available at the registered office of ING TFI and on the website at [www.ingtfi.pl](http://www.ingtfi.pl) (<https://www.ingtfi.pl/informacje-i-dokumenty/dokumenty-funduszy/prospekty-informacyjne>). The Participation Units of ING Emerytura SFIO sub-funds may be acquired exclusively as part of employee capital plans

operated under an agreement on the management of the employee capital plan concluded with ING Emerytura SFIO. ING Emerytura SFIO sub-funds may invest more than 35% of their assets in securities issued, secured or guaranteed by the Treasury.

Due to the high volatility of prices of financial instruments in which the assets of individual ING Emerytura SFIO sub-funds are invested, the net asset value of those sub-funds, in particular during their initial period of operation, may be highly volatile. The allocation of assets of individual ING Emerytura SFIO sub-funds between asset classes characterized by different levels of risk varies over time and will be made in accordance with the principle of gradual change of this allocation from instruments with the highest level of risk to more conservative instruments with a lower level of risk as the Sub-fund approaches its Sub-fund Target Date, specified separately for each individual Sub-fund. For the administration and management of individual ING Emerytura SFIO sub-funds, ING TFI collects remuneration the rates of which change as sub-funds reach specific maturity periods.

This leaflet does not constitute an offer to conclude a contract, investment advice, or a recommendation to buy or sell financial instruments, nor does it release the recipient from the need to make their own assessment. The information contained in the leaflet cannot be used as a basis for investment decisions. This leaflet has been prepared by ING TFI S.A. with due diligence and to the best of its knowledge and belief. This material is not an information document required by law.
